

E-BIKES

What you need to know

You can only ride
an e-bike if it (and
you!) meet certain
requirements.

Did you know you can only ride an e-bike if it meets certain requirements and you are 14 years or over?

Electric bikes are also known as 'electronically assisted pedal cycles (EAPC)' or e-bikes. E-bikes must have pedals that can be used to propel it, and it must show either the power output, or manufacturer of the motor **and** either the batteries voltage, or maximum speed of the bike.

The electric motor must have a maximum power output of 250W, and should not be able to propel the bike when it is travelling more than 15.5mph.

If an e-bike does not meet these requirements then it is classed as a motorcycle or moped, and needs to be registered, taxed and insured, you also need a driving licence and to wear a helmet.

If you are riding an e-bike which does not meet these requirements and it is not registered, taxed or insured, your e-bike could be seized.
